ENERGY CREATOR
BRIGHTER PAKISTAN

ABOUT US

01. Overview & History

Established in 2007, Energy Creator has rapidly evolved into a well-reputed name in Pakistan's renewable energy sector. Since our launch, we have executed a diverse and far-reaching portfolio of rooftop, commercial, and utility-scale solar projects, transforming clean-energy concepts into tangible, grid-connected realities.

From residential rooftops to industrial mega-plants, our engineering teams design, procure, and install high-efficiency photovoltaic systems built to perform in Pakistan's climate for decades to come.

Our Commitment

Our clients recognize our commitment to the highest quality workmanship, delivered on schedule and within a balanced budget. In meeting our objectives, we place unwavering emphasis on health, safety, and the environment — with stringent procedures enforced at every stage of installation and commissioning.

ENERGY CREATOR
BRIGHTER PAKISTAN

LEADERSHIP

02. CEO's Message

"Energy Creator was founded on the conviction that clean, intelligent solar engineering is key to meeting the energy needs of modern Pakistan — from single homes to mega industrial complexes. Our fundamental aim is to deliver reliable, efficient, and future-ready solar systems that are economical, durable, and built around our clients' real energy demands."

— Kamran Ahmed
Chief Executive Officer

ENERGY CREATOR
BRIGHTER PAKISTAN

STRATEGIC OUTLOOK

03. Vision, Mission & Objectives

Vision

To be the most trusted, reliable, and economical solar energy provider in the country — fostering a sustainable and innovative future for our clients, partners, and communities.

Mission

To build long-term relationships of value with our clients and partners by delivering quality solar engineering solutions, using the best resources, certified equipment, and the latest industry techniques.

Core Objectives

We are dedicated to delivering top-tier solar solutions that focus on reliability, cost-efficiency, and superior installation quality. We maximize the value of our delivery capabilities by providing end-to-end systems that are easy to maintain, upgrade, and scale to future energy demands.

ENERGY CREATOR
BRIGHTER PAKISTAN

WHAT WE OFFER

04. Core Services & Capabilities

We offer fast, reliable, and scalable solar solutions tailored to residential, commercial, agricultural, and industrial clients. Designing and executing complex PV projects requires deep expertise — our versatile team is equipped to handle comprehensive energy demands end to end.

On-Grid Systems
Grid-tied solar solutions with net-metering integration, allowing clients to offset utility bills and export surplus energy.

Off-Grid Systems
Standalone battery-backed solar systems for remote sites and locations with unreliable or no grid access.

Hybrid Solutions
Smart hybrid inverter systems combining solar, battery storage, and grid power for maximum uptime and efficiency.

Operations & Maintenance
Comprehensive O&M packages ensuring peak system performance, and monitoring throughout the asset life cycle.

ENERGY CREATOR
BRIGHTER PAKISTAN

OUR CAPABILITY

05. Project Management & Resources

Our dedicated team of solar engineers and technicians is, without doubt, our most important asset. We apply sound technical and management practices to develop and deliver projects using strict procedural protocols and certified equipment.

Equipment & Machinery Capabilities

As of today, we maintain a large skilled workforce backed by the latest solar installation and testing equipment:

Installation & Mounting

- Roof & Ground-Mount Structures, Aluminum Racking Systems
- Torque Wrenches, Drilling & Fastening Equipment
- Cable Management & DC/AC Wiring Tools

Testing & Diagnostics

- Solar Irradiance Meters & IV Curve Tracers
- Multimeters, Insulation & Earth Resistance Testers

Safety & Lifting

- Fully-equipped PPE Kits & Fall-Protection Gear
- Scaffolding, Cranes & Rooftop Access Equipment

ENERGY CREATOR
BRIGHTER PAKISTAN

COMPLIANCE

06. Registrations & Certifications

Energy Creator operates under full regulatory compliance, with active registrations and certifications recognized across Pakistan's energy sector:

- Pakistan Engineering Council (PEC) — [C-4]
- Federal Board of Revenue (FBR) —Taxpayer NTN / Certified
- Chamber of Commerce / ISO Certification

Project In Hand

CLIENT	ADDRESS	SYSTEM
River View Resort	Pakistan Garrison Petaro	200 KW
DIV HQ 25 Mech	B Mess, Welfare Shop, HQ Log Area	100 KW
Core Commander Office	HQ Cops 5	200 KW (Planning Process)
Suffah School	Gulshan-e-Iqbal	100 KW (Waiting For Approval)

OUR SATISFIED CLIENT
